

Fine and Mature Spätlese, Auslese, Eiswein, Beerenauslese and Trockenbeerenauslese Back to 1949

Thursday 9th June

These remarkably lusciously rich wines are a treat in themselves. Rare and expensive they are some of the longest lived wines in the world.

This tasting demonstrates the degree of richness in these wines by progressing through the full range cumulating in a very rare 1949 Trockenbeerenauslese.

**1993 Braunerberger Juffer Spätlese
1992 Urziger Wurzgarten Spätlese
1969 Johannisberger Klaus Riesling Auslese
1977 Gau Konmgerheimer Vogelsgang Eiswein
1989 Oppenheimer Guldenmorgen Eiswein
1989 Wachenheimer Bohig Beerenauslese
1976 Ruster Bouvier Beerenauslese
1949 Kulter Trockenbeerenauslese**

The tasting will be led by Jeffrey Benson who has supplied these wines from his own cellar.

Additionally, we are trying out a new format for this event. On arrival you will have a plate of canapés. It will be up to you whether you eat them at the start to stem hunger pangs, during the tasting or wait until afterwards.

Organiser's Note: The event has been made possible at this extremely attractive price because of the exceptional generosity of our Chairman Jeffrey Benson supplying the wines at a very low historic cost. For this reason it is restricted to Members and Joint Members only.

If you are booking this event and the 1983 Clarets please mark your first choice, as, in the event of over-subscription, you may only be allocated a place one of these events.
